2007 Fall Check-In Survey Report

All surveys

All surveys:

Number of surveys = 500

Number of completed surveys = 247

Percent of surveys completed = 49.40 %

Number of people who have asked to be removed from survey pool = 0

Number of bad email addresses = 1

Number of inactive UofM email addresses = 1

Number of inactive UofM email addresses where survey was completed = 0

Full Report:

15. How did the program help you become more familiar with campus?

Yes, but I think the time periods to enter should have lasted two weeks each because it would have been easier to check out all of the activities.

idk

I feel more familiar with the campus.

I visited websites that I didn't even know existed. I now regularly visit the sites I found through Kick It! to conduct University business.

I learned a lot from the websites.

It made me aware of services and programs available to students on campus. I think the activities that required you to attend an event should be worth more in the drawing, because I think you get more out of them than just looking something up on a website.

Lots of quizzes for prizes

It really didn't because I just answered the questions I already knew.

it taught me a lot about how to be on alert and things to look for. i received a lot of information.

It helped me get involved with other students, like the tailgating activities before games.

I only did the things i already knew about

It did not help me become more familiar with campus.

I don't think it did. I don't think its advertised very much. The only thing I knew about was at convocation.

It allowed me to get used to my new environment.

The questions were nice to find answers to but I already knew most of the answers

It forced me to go to different things that I wouldn't have otherwise.

I learned about many of the services around campus.

Saw a couple websites of umn I probably would not have known.

it helped me get out and explore campus

It help me to meet with different professors and discuss about my goals and interesting of the coming four year of the University of Minnesota.

It didn't really help me a lot, the questions I answered were ones I already learned about from other sources.

It helped new students get more involved with giving them some options to explore the different aspects of the U of M. I was really happy with the program because I won season tickets for Gopher Men's Hockey. The prizes also helped to get a better sense of the greater community.

mentioned good programs eg. study abroad

It was awesome! I started school familiar with campus resources which are helping now and in the future.

I learned more about activities I can be involved in throughout the year.
