Number of people who have asked to be removed from survey pool = 0

Number of bad email addresses = 0

Number of inactive UofM email addresses = 0

Number of inactive UofM email addresses where survey was completed = 0

Full Report:

12. Which programs helped you transition to the U?

Other (please specify)

I hated welcome week. It made me feel more alone, rather than a part of "something bigger", which I think is what the U was going for. We should have more socializing in the dorms available so that we can meet the people we see everyday.

Two years of PSEO full-time at the U prior to my official admission to the U of M.

I did PSEO here for two years and I liked that there was a separate PSEO orientation.

PSEO

Rush week.

Marching Band

I am in the College of Biological Sciences, and I found Nature of Life to be very helpful with the transition.

None

I think I would have been ready for college without any of these things...

Just coming to the U

Nature of Life

I have many friends that go to the school here.

Just moving in and finding my "niche" in the environment.

U of M marching band.

none of the above.

My living and learning community (wise house).

Moving in and walking around with friends helped me the most with getting to know the U and to get comfortable with it

My CA has done a very wonderful job of making me feel welcome. She has made sure once a week at the least to have an activity of some kind for the entire floor (optional), even if it's only eating dinner together. This has helped me feel like I belong in the community.

the bridge to academic excellence
